No. 73/10/Th. XXVII, October 15, 2024

---

## Exports and Imports of Indonesia, September 2024

- Exports in September 2024 reached US\$22.08 billion
  - Imports in September 2024 reached US\$18.82 billion
-

## A. Exports

---

- The value of Indonesia's exports in September 2024 reached US\$22.08 billion, decreased 5.80 percent compared to exports in August 2024 but increased 6.44 percent compared to September 2023.
- Non-oil and gas exports in September 2024 reached US\$20.91 billion, decreased 5.96 percent compared to non-oil and gas exports in August 2024 but increased 8.13 percent compared to September 2023.
- Cumulatively, Indonesia's exports during January–September 2024 reached US\$192.85 billion, increased 0.32 percent over the same period in 2023. Likewise, non-oil and gas exports reached US\$181.15 billion or increased 0.39 percent.
- Among the top ten commodities of non-oil and gas exports in September 2024, the highest decrease was animal or vegetable fats and oils, in amount of US\$404.4 million or decreased 16.91 percent from August 2024. On the other hand, the highest increase was iron and steel, in amount of US\$207.6 million or increased 10.41 percent.
- By industry classification, exports of manufacturing products during period January–September 2024 increased by 2.52 percent; exports of agriculture, forestry, and fisheries also increased by 17.58 percent; while exports of mining and others decreased by 8.79 percent compared to the same period in 2023.
- The main country destinations of non-oil and gas exports in September 2024 were China at US\$5.35 billion, United States at US\$2.22 billion, and Japan at US\$1.55 billion, with the contribution of the three reached 43.57 percent. Meanwhile, exports to ASEAN and the European Union (27 countries) amounted to US\$3.91 billion and US\$1.56 billion, respectively.
- According to the province of origin, the largest exports of Indonesia in January–September 2024 came from West Java with a value of US\$28.09 billion (14.57 percent), followed by East Java at US\$19.06 billion (9.88 percent) and East Kalimantan at US\$18.58 billion (9.64 percent).

## 1. Oil and gas & Non-oil and gas Exports

Indonesia's total exports in September 2024 decreased by 5.80 percent compared to August 2024, from US\$23,440.3 million to US\$22,081.7 million. However, compared to September 2023, the total exports increased by 6.44 percent. The decrease of exports in September 2024 compared to August 2024 was due to the decrease of both oil and gas export and non-oil and gas export by 2.81 percent and 5.96 percent, respectively. The decrease of oil and gas exports was due to the decrease of oil products exports (12.90 percent) to US\$312.6 million and natural gas exports (8.87 percent) to US\$659.5 million, while crude oil exports increased (63.39 percent) to US\$197.8 million.

Cumulatively, Indonesia's exports during January–September 2024 reached US\$192.85 billion or increased by 0.32 percent compared to the same period in 2023, while non-oil and gas exports reached US\$181.15 billion or increased by 0.39 percent.

## 2. Non-oil and gas Exports by 2-digits HS

Table 2 shows the figure of the top ten commodities of non-oil and gas exports in September 2024. Among the ten commodities group exports, the highest decrease was animal or vegetable fats and oils, in amount of US\$404.4 million or decreased 16.91 percent from August 2024. On the other hand, the highest increase was iron and steel, in amount of US\$207.6 million or increased 10.41 percent.

The other exports commodities which decreasing were ores, slag, and ash by 32.00 percent (US\$333.8 million); electrical machinery and equipment and parts thereof 12.39 percent (US\$181.1 million); footwear 8.68 percent (US\$56.9 million); miscellaneous chemical products 6.41 percent (US\$38.5 million); and vehicles and accessories thereof 0.42 percent (US\$4.3 million). On the other hand, the other commodities which increasing were mineral fuels by 4.58 percent (US\$144.1 million); nickel and articles thereof 9.71 percent (US\$63.7 million); and precious metals and jewellery/precious stones by 1.43 percent (US\$9.9 million).

**Table 2 Non-oil and gas Exports of Indonesia by 10 Commodities Groups, January–September 2024**

Commodities Group (2-digits HS)	FOB value (million US\$)					Growth (%)			Share to Jan–Sep 2024 (%)

Note: <sup>r</sup> Revised Figures  
<sup>\*</sup> Preliminary Figures

During the period of January–September 2024, exports of those 10 commodities groups (2-digits HS) contributed to 63.18 percent of total non-oil and gas exports. In terms of growth, exports of those 10 commodities groups decreased by 3.78 percent compared to the same period in 2023.

### 3. Non-oil and gas Exports by Country of Destination

Indonesia’s non-oil and gas exports in September 2024 to China, United States, and Japan reached US\$5,345.9 million; US\$2,216.4 million; and US\$1,549.7 million, respectively. The value of exports to some countries can be seen in Table 3.

Note: <sup>r</sup> Revised Figures  
\* Preliminary Figures

The total of non-oil and gas exports to 13 countries in September 2024 reached US\$15,058.8 million or decreased US\$1,052.7 million (6.53 percent) compared to August 2024. It can be seen from the table that exports to main destination countries such as United States, Japan, and Rep. of Korea experienced decrease, each 15.00 percent; 13.94 percent; and 25.70 percent. On the other hand, exports to some countries experienced increase, such as Netherland (18.36 percent), Singapore (6.53 percent), and Italy (16.93 percent). Meanwhile, exports to ASEAN and European Union in September 2024 reached US\$3,913.5 million and US\$1,556.2 million, respectively, or exports to ASEAN decreased by 2.41 percent, while exports to European Union increased by 1.36 percent compared to August 2024.

During the period of January–September 2024, China was still the country of destination with the largest contribution to Indonesia’s exports at US\$42,531.5 million (23.48 percent), followed by United States at US\$19,168.4 million (10.58 percent) and India at US\$15,302.9 million (8.45 percent). The main commodities exported to China in that period were iron and steel, mineral fuels, and nickel and articles thereof. Meanwhile, the contribution of exports to ASEAN and European Union in that period reached 18.02 percent and 7.11 percent, respectively.

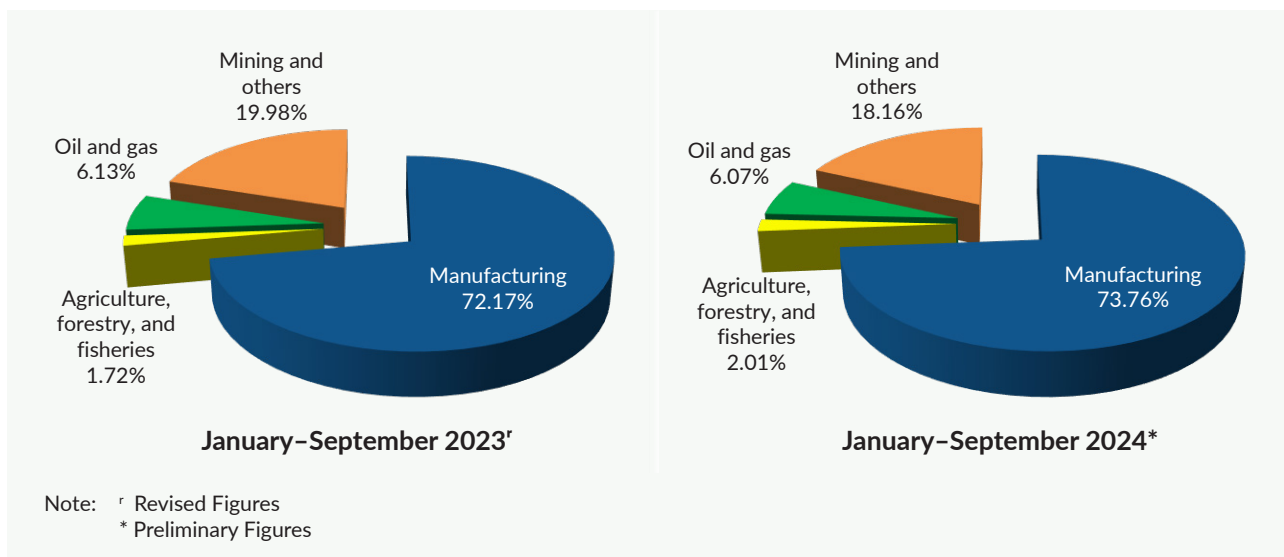

#### 4. Exports by Industry Classification

Contribution and progress of Indonesia’s non-oil and gas exports by industry classification in September 2024 compared to August 2024 can be seen in Table 4 and Figure 2. Exports of manufacturing products decreased 6.38 percent, contributed by the decrease of palm oil exports. Exports of mining and other products also decreased by 5.36 percent due to the decrease of copper ores exports. On the other hand, exports of agricultural, forestry and fishery products increased by 2.95 percent, supported by the increase of black pepper exports.

Note: <sup>r</sup> Revised Figures  
<sup>\*</sup> Preliminary Figures

**Figure 2** Structure of Indonesia Exports, January–September 2023 and 2024

During the period of January–September 2024, non-oil and gas exports of manufacturing products increased by 2.52 percent compared to the same period in 2023, that contributed mainly by the increase of precious metal exports. Exports of agricultural, forestry and fishery products increased by 17.58 percent, supported by the increase of coffee exports. On the other hand, exports of mining and other products decreased by 8.79 percent due to the decrease of coal exports.

## 5. Exports by Province of Origin

Three provinces that made the biggest contribution to national exports during January–September 2024 were West Java with a value of US\$28,087.8 million (14.57 percent), followed by East Java at US\$19,061.3 million (9.88 percent) and East Kalimantan at US\$18,582.1 million (9.64 percent). The contribution of the three reached 34.09 percent to national exports. Indonesia’s exports by province of origin for the period of January–September 2024 can be seen in the table below.

# A. Imports

- Imports of Indonesia in September 2024 were worth US\$18.82 billion, decreased by 8.91 percent compared with August 2024, but increased by 8.55 percent compared with September 2023.
- Imports of oil and gas in September 2024 were worth US\$2.53 billion, decreased by 4.53 percent compared with August 2024, and decreased by 24.04 percent compared with September 2023.
- Imports of non-oil and gas in September 2024 were worth US\$16.30 billion, decreased by 9.55 percent compared with August 2024, but increased by 16.29 percent compared with September 2023.
- The most significant decrease in imports of non-oil and gas among the biggest ten commodities in September 2024 was electrical machinery and equipment and parts thereof which decreased by US\$342.1 million (14.48 percent). In contrast, optical, photographic, cinematographic, medical instruments was increased by US\$33.5 million (9.21 percent).
- The largest trading partner countries of non-oil and gas imports in January–September 2024 were China US\$51.38 billion (35.65 percent), Japan US\$10.53 billion (7.31 percent), and Australia US\$7.32 billion (5.08 percent). Imports of non-oil and gas from ASEAN and EU countries were US\$25.67 billion (17.81 percent) and US\$9.43 billion (6.54 percent), respectively.
- Compared with the same period last year, imports of intermediate goods in January–September 2024 experienced the highest rise with a US\$4,726.5 million (3.94 percent) increase, followed by the increase of capital goods by US\$953.5 million (3.31 percent) and consumption goods by US\$667.9 million (4.26 percent).
- Indonesia’s balance of trade in September 2024 experienced a surplus of US\$3.26 billion, which mainly affected by a surplus of non-oil and gas of US\$4.62 billion. On the other hand, there was a deficit of US\$1.36 billion in oil and gas.

## 1. Imports of Indonesia

Imports of Indonesia in September 2024 were worth US\$18,824.7 million, decreased by 8.91 percent compared with August 2024. The decrease was due to the fall in oil and gas imports which decreased by 4.53 percent, and followed by non-oil and gas by 9.55 percent. The decrease of oil and gas imports was due to the decrease of oil products imports by US\$163.4 million (8.41 percent), even though crude oil imports increased by US\$43.5 million (6.16 percent).

Total imports of Indonesia in January-September 2024 increased by US\$6,347.9 million (3.86 percent) over the same period last year. The increase was driven by the increase of both oil and gas imports which rose by US\$979.4 million (3.80 percent), and the import of non-oil and gas which increased by US\$5,368.5 million (3.87 percent). The increase of oil and gas imports was due to the rise oil products which increased by US\$1,357.0 million (7.69 percent), even though crude oil decreased US\$377,6 million (4.65 percent), respectively.

## 2. Non-Oil and Gas Imports by 2-digit HS

Imports of non-oil and gas Indonesia in September 2024 were worth US\$16,296.2 million, decreased by 9.55 percent compared with the previous month. In comparison with August 2024, optical, photographic, cinematographic, medical instruments experienced most increases with a US\$33.5 million (9.21 percent) rise, followed by miscellaneous chemical products which increased by US\$14.6 million (4.19 percent).

On the other hand, eight commodities decreased which the highest were electrical machinery and equipment and parts thereof with a US\$342.1 million (14.48 percent) increase. The next commodities which experienced decrease were organic chemicals by US\$158.8 million (22.77 percent), precious metals and jewellery/precious stones by US\$130.7 million (23.1 percent), vehicles and accessories by US\$119.3 million (12.11 percent), plastics and articles thereof by US\$95.9 million (9.41 percent), cereals by US\$83 million (18.63 percent), iron and steel by US\$22.3 million (2.48 percent), machinery and mechanical appliances and part thereof by US\$5.9 million (0.20 percent). Table 2 shows the non-oil and gas imports by 2 digit HS Code in detail.

Note: \* Preliminary figures

In January–September 2024, these main commodities increased by US\$3,878.8 million or 4.69 percent compared with the same period last year. Those commodities contributed 60.09 percent to the total non-oil and gas imports of Indonesia January–September 2024.

### 3. Imports of Non-Oil and Gas by Country of Origin

In September 2024, total non-oil and gas imports from 13 major countries were worth US\$16,296.2 million or fell by US\$1,096.6 million (7.75 percent) compared with August 2024. The fall was mainly due to the decrease of imports from China US\$455.6 million (7.08 percent), Australia US\$225.5 million (23.08 percent), and Japan US\$183.2 million (12.93 percent).

Over the same period last year, imports from 13 main countries in January–September 2024 increased by US\$2,558.1 million (2.32 percent) mainly due to the increased of imports from Tiongkok US\$5,705.2 million (12.49 percent), followed by Singapore US\$1,393.3 million (23.76 percent), and Australia US\$813.3 million (12.50 percent).

Furthermore, the main contributors for total non-oil and gas imports in January–September 2024 were China US\$51,382.6 million (35.65 percent), followed by Japan US\$10,531.4 million (7.31 percent), and Thailand US\$7,286.6 million (5.06 percent). ASEAN countries contributed US\$25,671.9 million (17.81 percent) and EU countries shared US\$9,427.9 million (6.54 percent). Table 3 shows the non-oil and gas imports from 13 countries in detail.

### 4. Total Imports by Broad Economic Categories

In September 2024, imports of consumption, intermediate, and capital goods experienced decreases which fell by US\$126,0 million (6.37 percent), US\$1,442.2 million (9.69 percent), and US\$272.3 million (7.15 percent), respectively.

Furthermore, in January–September 2024, imports of consumption, intermediate, and capital goods experienced increases over the same periode last year with US\$667.9 million (4.26 percent) and US\$4,726.5 million (3.94 percent), and US\$953.5 million (3.31 percent), respectively.

Moreover, in January–September 2024, intermediate goods contributed the highest with US\$124,736.0 million (73,00 percent), followed by a US\$29,794.4 million (17,44 percent) of capital goods and a US\$16,337.1 million (9,56 percent) of consumption goods. Table 4 shows the imports based on broad economy categories in detail.

### 5. Trade Balance

Indonesia's trade surplus in September 2024 recorded to US\$3.26 billion, mainly driven by a surplus of US\$4.62 billion from non-oil and gas sector, offset by a deficit of US\$1.36 billion in oil and gas. Furthermore, in January–September 2024, Indonesia recorded a US\$21.98 billion surplus that consisted of a surplus of US\$37.03 billion non-oil and gas, offset by a deficit of US\$15.05 billion in oil and gas.
